

FABRIC PLUS
PERFORMANCE

Performance Fabric Plus is a collection of fabrics, curated by Younger with you in mind. Life Happens... spills, art projects, accidents... Performance plus lets you relax while keeping your furniture looking beautiful.

STAIN RESISTANT: Treat stains and spills quickly by first blotting with a clean damp cloth which will remove most if not all stain. If needed, prepare mixture of mild dish soap with water and finish cleaning. Then rinse very thoroughly as soap residue will attract dirt.

EXTRA DURABLE: All performance fabric plus fabrics exceed industry standards for heavy duty or contract heavy duty use. All constructed from durable fibers and made for high wear ability.

LIQUID REPELLENCY: Inherently designed to repel liquids. Spills will bead up and roll right off... never penetrating the fabric. Then you can simply blot dry if needed.

ODOR RESISTANCE: Silver Ion Technology resists microbial development and inhibits odor causing bacteria.
