CUSTOM MADE AND BENCH BUILT FROM  
START TO FINISH IN NORTH CAROLINA

*Ask your sales associate how QUICK you can get your custom built piece of quickship in your home!*

*Mike Younger, Founder and CEO with  
Meredith Younger Spell, Creative Director*

At Younger, we have been making quality furniture from start to finish in North Carolina since 1989. We are proud to say that we are a family founded, owned and operated company with deep roots in the furniture business. When you order a piece from us, it literally comes from our family, to yours. Not only do we bench build our furniture from start to finish in North Carolina, but everything that goes into our product (all raw materials and components)

comes from within 15 miles of our factory. We believe in supporting our local economy while also keeping a close eye on the quality and composition of everything that goes into our product. To go one step further, all wood used to build our frames comes from forests certified by the sustainable forest initiative and all foam is certified CertiPUR.

So what is this **quickship** program? Basically, it's our answer to giving our customers insanely quick product while not compromising any of our high quality, custom made, bench built, values. To make up the program, we chose our proven best sellers so we would make sure to have something for everyone. **9 collections. 42 models. 20 fabrics.** You might wonder: do they have these pieces premade, sitting in a warehouse, ready to go out the door? NO WAY! That's not how we roll.

We custom make every order! When we receive every quick ship order, it literally cuts to the front of the production line. Quick ship is the VIP of our furniture factory and it gets the first class treatment. Quick ship is always just as much bench built and custom made for you, at the time you place your order. And always, from our family, to yours. Ask your sales associate how **QUICK** you can get your custom built piece of quickship in your home!

Okay, we'll let you in on a little secret. If you ever visit one of the Younger family's homes, you'll find the Grace sectional sitting pretty in the great room. It's not that we love our other creations any less, it's just that this is just an unbelievably comfortable piece, the kind you sit "in" rather than "on." And if you really want to feel like your resting on a cloud, you simply must check out the Feather & Down cushion options. But, really, it's not just us that can't bear to live without grace; this is our most popular sectional and, other than the wonderful comfort, it could be that, with all the options we offer, this sectional or sofa can work great in just about anyone's home. Available in a multitude of options and configurations, see schematics below.

*For quickship: Option of feather and down OR standard cushions. Wenge finish only.*

One of our all-time best-selling sectionals, this set mixes with a range of styles, from transitional, through midcentury modern, to totally contemporary. Coolly composed atop its tapered wooden legs, the architectural lines are softened and domesticated by button tufted seat and back cushions. And if the great looks don't make you just crave it, wait until you feel how it sits – the comfort is bound to win you over. Available in a multitude of options and configurations, see schematics above.
